Household help in Berlin, Hanover and the surrounding area

We check your entitlement, take over the complete application process and direct billing with your health insurance company.

If you have any questions, please do not hesitate to contact us at any time.

Services

Our mission

Our household help does all the work that needs to be done in a household.

She ensures cleanliness, cooks, washes and irons. She also takes care of the children. In this way, she makes an important contribution to the family's daily routine.

All our employees are discreet, trustworthy and able to relate to others.

Our household help

Our household helpers are regularly checked and have accident and liability insurance during their assignments.

For insurance reasons, budgetary resources must be used from your own household.

Own illnesses

As our household helpers work in different households, it is important to us that you tell us about your own colds, illnesses and illnesses of your children at an early stage to minimize the risk of infection.

Special information

If there are pets in the household, a household helper with a car is needed, or there are any other special circumstances, please let us know before we plan the appointments.

Appointment planning

As soon as we have received approval from the health insurance company, we will contact you to arrange suitable appointments.

All appointments for the coming week will be announced on Fridays.

We ask for your understanding that because of the large number of assignments to be planned, it is not always possible to provide the name of the household help.

If you cannot keep an appointment, you must cancel it at least 24 hours in advance. Otherwise it must be billed.
